HF SERIES MULTIHEAD COMPUTERIZED EMBROIDERY SEWING MACHINE

MAIN FEATURES

HF-SERIES Range of multihead machines are capable of doing superfine stitch logo embroideries like Japanese machines quality. This has been achieved by using advanced frame mechanics and closed loop electronics to achieve super fine stitch quality even on knitted fabrics. Adjustable presser foot height leads to zero marks on fabrics for cleaner operations. Advanced auto oil lubrication system is a standard so lubrication is done effectively without oil stains on fabric. HF-SERIES technology uses advanced trimming technology for super fine thread trimming results which is of critical importance for logo embroidery. In addition to this, advanced hooping techniques lead to beautiful embroideries.

MODEL	HEAD	COLORS	AREA X	AREA Y	TECHNICAL SPECIFICATIONS:-	
906	6	9	400	800	STITCH LENGTH:-	0.1 TO 12.7 mm
