FOR SALES +91 9810859389, 9990549597, 9910123750 SURAT: +91 9899533591

FOR SERVICE: +91 9312804596

We take this opportunity to explain the fantastic innovations of our Aura Embroidery Machines.

The Aura machines have the capability to perform all types of embroidery including, Taping, Cording, Beading, Cut Dana, Frilling, Coiling, Thick Thread embroidery, and of course Normal Embroidery. Aura machines can multi-task by using various combinations of attachments to create an endless range of designs styles.

### OPTIONAL DEVICES & ATTACHMENTS

NOTE :- MACHINES CAN BE MADE AS PER CUSTOMER CUSTOMISED SPECIFICATIONS

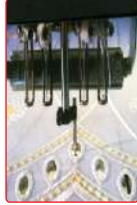

Single Sequins

Twin Sequins

Boring

Cording

Glass Beads

Laser

Thick Yarn

Auto Bobbin Changer

### Standard Head & Sequin Device Combination

Our new Twin Type Sequin Device, where the two sequins are attached using a single needle and by a single thread. Sequins can be overlapped, laid on top of each other or laid alternatively into the most complex range of designs!!

### Standard Head, Sequin Device & Boring Device Combination

The normal head can perform standard embroidery with Boring and & Sequins to create the most wonderful embroidery.

Our latest Beading Device, which allows you to attach multi-colored beads creating a fantastic range of endless designs that truly no other manufacturer can come even close to achieving.

Our range of models are perfect for Garments, Complex Saree Borders, Home Furnishing, Children's Clothing, Curtains & Cushion Covers, and the list goes on according to the users own creativity.

Many of Known Exporters and Job workers are using Our Aura brand Embroidery Machine

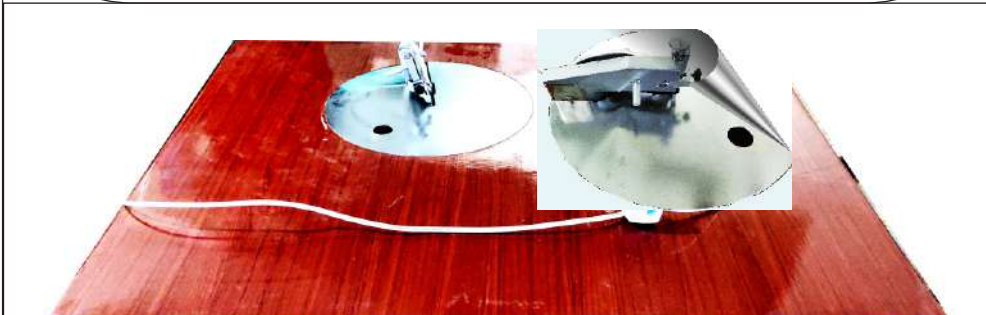

# OTHER EQUIPMENTS

## AUTOMATIC BOBBIN WINDER

Reduce the labor cost and material cost  
 Simple handle & operate. it is can automatically trim and send the bobbin once finished winding thread.  
 Automatic Bobbin Winder lets you control the amount of thread being wound which permits better production plans.  
 it can use for Both Machines Improve the production efficiency  
 sewing machine and embroidery machine best assistant equipment.

## SCALLOP CUTTING MACHINE

Easy to handle & operate. Suitable for small & Big scale cutting  
 Suitable for gentle curve line cutting To cut the larger part of the garments.  
 With a same r.p.m. its efficiency is 10 times greater than the straight knife.  
 t's useful for gentle curve line cutting, big parts cutting, lace cutting,  
 cutting out fabric block from lay & small scale cutting.  
 It's normally use for small production.

## AUTOMATIC BOBBIN WINDER ROBOT

save labor cost uniform meterage & thread tension  
 uniform bobbin winding lower quality rejections increase productivity  
 up to 180 bobbins per hour

**STITCH ERASER**  
 The Original Stitch and Embroidery Removal Tool AEE-0118  
 Embroidery and Stitch Eraser is a utility device for every Garment manufacturer and Embroiderer which has been launched first time in India.  
 It is used to easily Open Defective Embroidery and Stitches for Mending.  
 It is used to remove stitches from embroidery and all types of stitch patterns.  
**Description**  
 Power Adapter : AC-100-240V, DC 5V, 1A, 50/60Hz  
 Charging Time: 4 Hours  
 Operation Time: up to 7 Hours  
 Battery Type: Lithium Rechargeable Battery  
 Battery Capacity : 3.7V, 2000mA, 7.5W  
 Blade: Tungsten-Steel coating on Ceramic Shear Blade (Detachable 40mm blade)

## EASY THREAD CUTTER

**EASY THREAD CUTTER IS WORTHY FOR ALL THE GARMENT EXPORTER'S**  
 ROBUST TECHNOLOGY INCREASE EFFICIENCY  
 EASY TO CLEAN AND CARRY LOWEST COST & MAINTENANCE  
 SAVE TIME & SAVE MONEY ENVIRONMENTAL FRIENDLY  
 HEALTH SAFETY CONSIDER  
 THE SINGLE MACHINE CAN SAVE TWO MANPOWER COST
